

Diploma Programme Improves Profitability and Supplier Quality

Client:

Clamason Industries, manufacturers of precision pressings

Clamason's Requirements were to Improve:

Business performance and profitability improvements

Skills and confidence

Cross-department working and understanding

Improve relationships with suppliers

Capella's Input:

Delivered a series of workshops to provide and assess underpinning knowledge in Business Improvement Techniques

Provision of coaching support to apply learning and complete improvement projects at Clamason and key suppliers

Facilitated management reviews and final presentation of projects

Clamason's Results:

Good quality data on equipment utilisation

Improvement and control plans to reduce equipment damage and avoid the need for further investment

Reduced supplier rejects and improved performance

Improved relationships with key suppliers

Increased understanding of Change Over process and plans to reduce time taken

Increased skills and confidence of a core group of people, accrediting them to NVQ Level 2 and Six Sigma Yellow Belt standards

“ A massive improvement ”

Paul Edwards
Engineering & Quality Director

“ Brilliant – I can use this to do other projects ”

Marek Chableski

“ I've re-learned and looked at other ways of using tools ”

Brett Bishop
